Color one circle each time. It gets easier every read.

How to use this, then talk and draw

FOUR MINUTES, IN THIS ORDER

- 1. Look at the picture together.** Ask “What do you see? What do you think happens?” This puts the story in their head before their eyes do the hard work.
- 2. Cover the picture while they read.** The picture is for understanding, not for guessing words. Uncover it when they finish.
- 3. Warm up on the six words,** check off the heart words, then read the story.
- 4. If they get stuck, don’t say the word.** Say “sound it out” and tap under each letter. Every word here is one they can build.
- 5. Read it three times.** The first read is work. The third read is reading.

Think about it

Say the answer out loud first. Then write it if you can.

1. Why is Sam wet?

2. What did Sam use to get the pig clean?

3. Do you think the pig liked the tub? Tell me why.

Draw it

Draw the last thing that happens in the story.
